## Annual Coast Guard Band Tour Travels to California With Transport from Ramar

**V**an operator team Harry and Jodie Brill of Ramar Moving Systems, Frederick, Md., had an interesting start to a busy summer when they provided more than two weeks of transportation for an annual tour by the U.S. Coast Guard Band. The band organizes a tour in various parts of the country each year.

The Brills hauled more than 100 cases containing the band's instruments and other equipment through southern and central California. They were impressed with arrangements made to accommodate parking for their van at the tour stops, making access easy. They also enjoyed meeting composer Roger Nixon, 83, whose music the band performed.

*Musician First Class Megan Sesma, the first harpist to play with the U.S. Coast Guard Band since its formation in 1925, grabs a few minutes of practice time in van operator Harry Brill's trailer during the California tour.*
